Manned Guarding - Security and Safety Solutions

Sight & Sound provides professional, highly trained guards, protecting premises and people throughout London and the South East.

Each and every one of our security personnel is individually selected and trained to meet the specific business needs of our clients. We recognise that our staff are responsible not only for the security of your site, but that they also have an important role to play as representatives of your company when meeting and dealing with visitors.

All the members of our team are trained to standards well above the industry norm, initially attending a four-day induction course carried out by our in-house training team, followed by on-site training to ensure they are fully equipped for their role.

THE EYES & EARS OF YOUR BUSINESS SECURITY

Manned Guarding - Security and Safety Solutions

Our personnel have the support of Sight & Sound's 24-hour control centre, which can provide immediate assistance if the need arises. This ensures that we provide a rapid and efficient response to any incident, real or potential, 365 days a year.

Our personnel are our business, and the only way we can provide an excellent level of service is to supply high calibre staff. It is a measure of our success that our rates of pay and benefits are amongst the highest in the industry, whilst our employee turnover is amongst the lowest.

In addition to manned guarding services, we provide quality trained and screened receptionists, customer care officers, car park supervisors, fire officers, post room workers and chauffeurs.
